

# Certificate II in Sport and Recreation

## SIS20312

### Description:

Sport and Recreation offers students the opportunity to develop work related skills in the sports field. In particular this course looks at coaching and officiating. Students will gain their first aid, be able to assist in conducting sport and recreation sessions for participants, provide equipment for activities and apply the principles of community development to community recreation work.

### Pathways:

This entry level qualification allows for further studies in the sport and recreation field. It aims to provide specific skills and knowledge required to be an assistant level employee in a sports program, gym, aquatic centre or leisure centre. It could lead to further studies in fitness, outdoor recreation or sport and recreation.

### Areas of Study:

- participate in workplace health and safety
- provide first aid
- work effectively in sport, fitness and recreation environments
- respond to emergency situations
- maintain sport, fitness and recreation industry knowledge
- organise and complete daily work activities
- provide quality service
- assist with activity sessions
- provide equipment for activities
- maintain equipment for activities
- perform the intermediate skills of AFL
- teach fundamental skills of athletics
- teach fundamental basketball skills
