Body at Work and Advanced Body at Work Fit 4 Action	PE Theory
Global Health and Health Promotion	Health and Human Development
Introduction to Outdoor Ed	Outdoor Ed and Environmental Studies
Child Development	Health and Human Development

VCE units for Year 9/10 students

If you have excellent Health/PE results and have demonstrated to staff that you have good study and organisational skills you may be considered for advancement in Year 9 (Outdoor and Enviro Studies) or 10 into a VCE Unit 1 and 2 course. Approval to study a VCE course as a Year 10 student is based on staff recommendations / student applications as well as availability of places in a Year 11 class (Year 11 students will get preference over Year 10 students). Studying a VCE course will provide you with a valuable head start in your VCE studies. It will also help you make the transition from junior school courses into Year 11 courses easier.

Additional information on VCE Health/PE courses and course descriptions can be obtained from your Health/PE teachers and www.vcaa.edu.au

Further advice on VCE Health/PE complementary and supporting subjects

The following subjects are often taken together as their content and skill support each other and they are common prerequisites and combinations for tertiary studies

- Health/PE and Health and Human Development
- Outdoor Education and Environmental Studies and Environmental Science
- PE Theory and Biology

Guide to choosing your Health/PE electives

- Research possible careers that you might consider following and look up the course requirements as well as what subjects you will be doing when training for this career. Consider what Health/PE topics that you have enjoyed and think about whether any of the junior school electives would allow you to follow your interest
- Keep yourself challenged, do not pick an elective because it sounds easier than another. Your Health/PE teacher is the best person to ask about whether she/he thinks if you can handle the concepts associated with a particular elective
- Keep your Health/PE education as broad as possible. It is important to keep your options open to as many different careers as possible for as long as possible

Clonard Health/PE experts

The following Clonard teachers are always available to assist you in your planning and decision-making:

- Ms Meg Poirier – HPE Learning Leader, VCE HHD, Yr 10 Health Electives, Yr 7-10 HPE
